

THE ARCTIC EDGE FOR SKID STEERS.

The **Arctic HDSSTE-P** combines the plowing power of Arctic with the mobility of a skid steer. Featuring a universal mounting plate, a mounted crossover valve and mounting steps, the **Arctic HDSSTE-P** quickly and easily locks into the standard adapter plate to add all the benefits of the Arctic Heavy Duty Trip Edge – Poly plow to your skid steer.

HOT-DIPPED GALVANIZED STEEL FRAME

provides added resistance to abrasion, water and rust, making our plows virtually maintenance free

4 ADJUSTABLE COMPRESSION SPRINGS

to compensate for roughness of plowing terrain

SOLID FRAME

allows for a rigid connection to the skid steer unit and the ability to apply down pressure

UNIVERSAL MOUNT ADAPTER

attaches quickly and easily to the standard adapter plate of a skid steer

6 LASER-CUT, STEEL REINFORCING RIBS

back our frictionless poly moldboard with the strength of steel

3/8" POLYETHYLENE MOLDBOARD

throws snow further and faster resulting in less resistance and vehicle wear, and improved fuel economy

ADDITIONAL HORIZONTAL REINFORCEMENT

from 3 steel support structures that run the width of the moldboard

6" DEFLECTOR

keeps snow down on the blade and away from the driver's windshield

UNIQUE GREASABLE CENTER HINGE

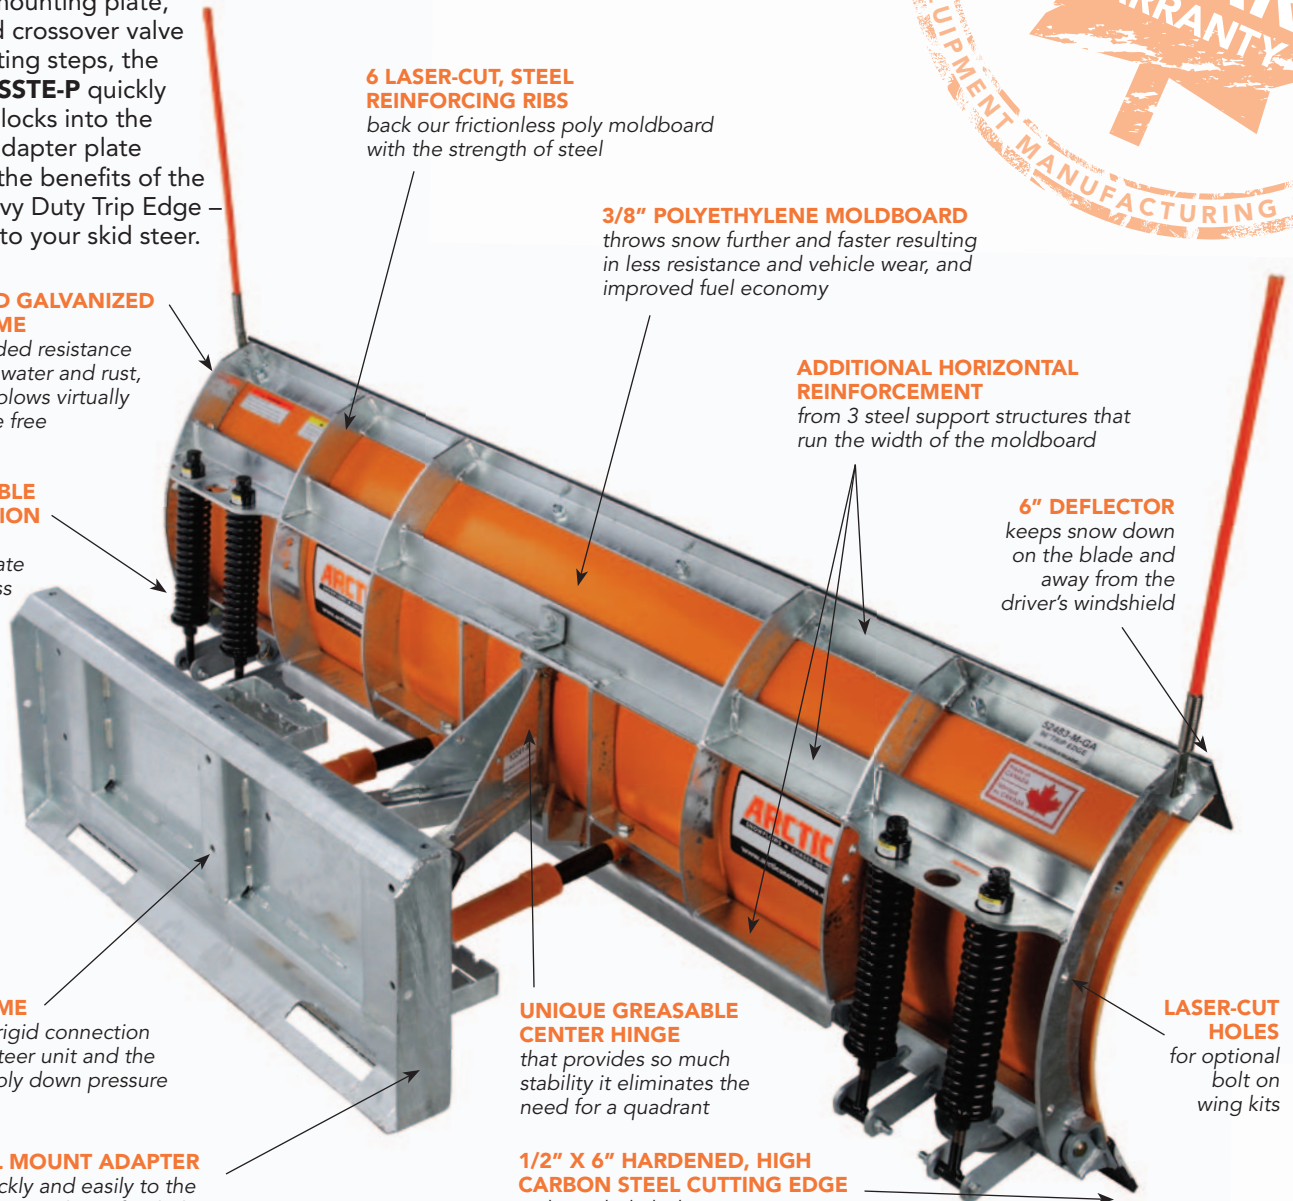

that provides so much stability it eliminates the need for a quadrant

1/2" X 6" HARDENED, HIGH CARBON STEEL CUTTING EDGE

with top hole bolt pattern

LASER-CUT HOLES

for optional bolt on wing kits

WHY CHOOSE POLY?

Arctic's high density polyethylene moldboards combine the durable, slick characteristics of poly with advanced blade design mechanics to throw more of even the stickiest, wettest snow further and faster. This not only results in more snow being moved more quickly, it also minimizes forward resistance – meaning decreased wear on power trains and increased fuel economy. **Contact your Arctic Dealer to learn more about the high-tech, low-maintenance benefits of poly.**

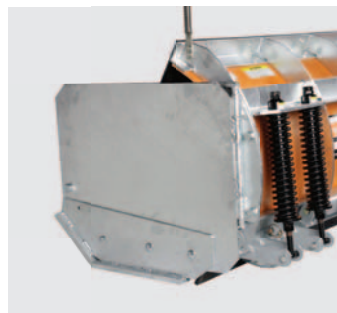

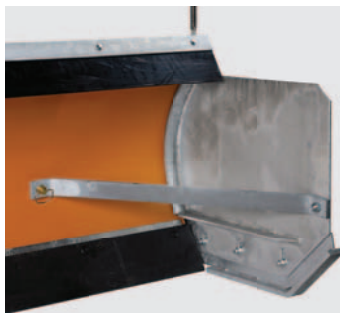

UNIVERSAL MOUNT ADAPTER

The universal mounting plate works for almost all makes of skid steer machines. The rigid A-frame gives superior strength, and the hydraulic crossover valve protects the cylinders and vehicle's hydraulic system.

ARCTIC HDSSTE-P SPECIFICATIONS

Plow Name	HDSSTE90-P	HDSSTE96-P	HDSSTE108-P
Length	90"	96"	108"
Moldboard Height	29"	29"	29"
Material	3/8" Poly	3/8" Poly	3/8" Poly
Plowing Width (Full Angle)	78"	83"	94"
Complete Weight	631 lbs	674 lbs	725 lbs
Mounting Type	Detachable	Detachable	Detachable

OPTIONAL WING EXTENSIONS

Bolt on brackets with removable pins allow for quick installation and removal. Move up to 3 times the normal volume of snow by turning your blade into a push plow.

THE ARCTIC SNOWPLOW 7 YEAR WARRANTY

Arctic snow removal equipment is fully guaranteed to be free from material or manufacturing defects for three years from date of purchase and the plow's structural integrity is covered for an additional 4 years. Some conditions apply. Please ask your Arctic Dealer for details, or call **888 413 0019**.

LEGAL DISCLAIMER: Vehicles intended to be equipped with Arctic equipment must comply with the vehicle manufacturers' specifications for equipment application. Please consult your vehicle dealer before purchase and installation. The purchaser assumes all vehicle risk associated with the attachment and operation of Arctic equipment.
